Short Summary

I have a 18 month old at home and the wisest thing anyone has told my wife and I about how to raise a little person is that everything is a phase.

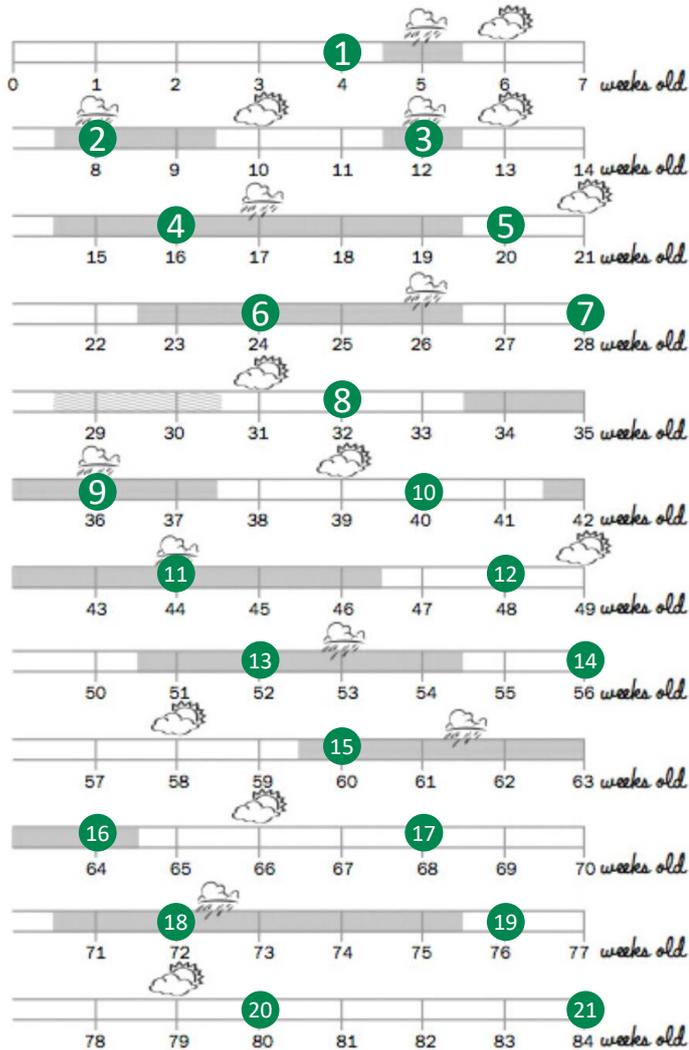

Better yet, I was recommended to read the book 'The wonder weeks'.

I loved this book so much I've written cliff notes for you all.

Your Baby's 10 Great Fussy Phases

 Your baby may be more fussy now.

 Your baby is probably going through a comparatively uncomplicated phase.

Around this week, a "stormy" period is most likely to occur.

Around this week, it is most likely that your baby's sunny side will shine through.

Fussy and irritable behavior at around 29 or 30 weeks is not a telltale sign of another leap. Your baby has simply discovered that his mommy can walk away and leave him behind. Funny as it may sound, this is progress. It is a new skill: He is learning about distances.
